Professional Summary

Experienced Frontend Developer with a solid background in Informatics Engineering (GPA: 3.54). Proven track record of translating complex Figma designs into responsive enterprise applications. Experienced in building web modules across financial (Bank Mandiri) and government (Bea Cukai) platforms using React, Angular, and TypeScript.

SKILLS

- **Languages:** C#, CSS3, HTML5, JavaScript, SQL, TypeScript
- **Frameworks/Libraries:** Angular, Ant Design, Next.js, PrimeNG, React.js, Svelte, Tailwind CSS, Vue
- **Tools:** Bitbucket, Confluence, Git, GitHub, GitLab, Jira

WORK EXPERIENCE

Direktorat Jenderal Bea dan Cukai (Outsourced by PT Altros Teknologi) — *Frontend Developer*
Jakarta, Indonesia | February 2025 – Present

- Developed and maintained core microfrontend modules within the CEISA 4.0 and Portal Pengguna Jasa systems using React.js and Ant Design.
- Collaborated closely with backend teams to integrate RESTful APIs, ensuring secure data handling and responsive layouts.
- Identified, debugged, and resolved system-critical frontend bugs, enhancing portal stability for external users.

PT Bank Mandiri (Persero) Tbk (Outsourced by PT Lawencon International) — *Software Engineer*
Jakarta, Indonesia | April 2024 – December 2024

- Developed corporate banking frontend modules (Export Letter of Credit, Document Tracker, Auto-Debit, EIPP, and VA Collection) using Angular and TypeScript.
- Built responsive, utility-first UI elements with Tailwind CSS based on Figma design specifications.
- Participated in team code reviews, optimized component modularity, and maintained technical documentation in Confluence.

PT Lawencon Internasional — *Frontend Developer*
Jakarta, Indonesia | February 2024 – March 2024

- Developed HRIS (Linov) frontend features for payroll, attendance, and employee management using Angular and PrimeNG.
- Translated wireframes into responsive modular UIs, improving codebase cleanliness and maintainability.

PT Dyandra Promosindo — *Project Officer*
Jakarta, Indonesia | June 2021 – November 2022

- Managed technical Zoom/VMIX integrations, network checks, and live stream configurations for national webinars.

EDUCATION

Bootcamp Full Stack Developer — *PT Lawencon Internasional*
Jakarta, Indonesia | November 2023 – January 2024

Bachelor of Engineering - BE Teknik Informatika — *Universitas Gunadarma*
Kota Depok, Indonesia | GPA: 3.54/4.00 | July 2016 – November 2020
